MODEL 1442B

72" X 42" RECTANGULAR WOOD BACKBOARD WITH BORDER AND TARGET

The 1442B backboard shall be fabricated using 1 1/2" thick high-density fiberboard glued and cured under pressure with non-glare white face surfaces. Perimeter edges shall be eased. The front face, back face, and edges are laminated with a cured white polymer film. Film is composed of polyester acrylate for lasting durability. The cured polymer film contains no urea formaldehydes and is certified as a (LEEDS) green product. Orange border and target shall be silk-screened on face of bank with epoxy based ink for permanent markings.

Backboard shall have pre-drilled goal mounting holes on 5" horizontal and 4" vertical centers. Mounting brackets in each corner are used to mount backboard.

ACCESSORIES

GOALS

See Goal-Board Matrix specification sheet for goal compatibility.
