MODEL 6809
2-3/8" TETHERBALL SYSTEM

RECOMMENDED APPLICATION

Designed for a permanent tetherball set up installed in a concrete footing.

SPECIFICATIONS

The Tetherball post shall be constructed of 2 3/8" O.D. x 13 gauge wall galvanized steel tubing. Base of post shall have a plate welded to ensure post does not spin when installed in a concrete footing. The post shall be a total of 12 feet long with 2 feet in ground in the concrete footing.

System includes post, plated hardware, and tetherball with rope.

WARRANTY

One year from date of purchase. Warranted against manufacturing defects only. Warranty covers damage or failure from normal and intended use of the product, but not abusive activities.

Subject to design change and current manufacturing practices.
